Note 1: The above diagrams are sample configurations only. Design of Millwork and Modular Casework will be as determined with the Owner through the process described in Appendix 2C [User Consultation and Design Review].

Note 2: Technical workspaces (Including Lab, Pharmacy, Biomed, FMO, MDRD, and Food Services spaces) to include Modular Casework and workstations, as required to meet the requirements in Schedule 3 Design and Construction Specifications and are not detailed in this matrix.

Note 3: Room name and reference numbers based on Schedule 3A Clinical Specifications and Functional Space requirements and are subject to change throughout design.

APPENDIX 3L – ATTACHMENT 1

MILLWORK AND MODULAR CASEWORK METHODOLOGY DIAGRAM

- 1. This document outlines the methodology for calculating the Category of Millwork and Modular Casework to be provided for a room or space.
- 2. The total area of the Millwork or Modular Casework is the horizontal area footprint projected onto the floor plate, refer to the shaded area on the floor in the diagrams below.
- 3. The "Min. Millwork / Modular Casework Length" listed in Appendix 3L Millwork and Modular Casework Matrix is the total combined length of dimensions "A" and "B" shown in the diagrams.
- 4. The "Min. Millwork / Modular Casework Length" listed will be increased as required to suit the Owner's requirements to within the percentages listed within each Category.
- 5. The "Min. Millwork / Modular Casework Length" is exclusive of any length for the items listed under 'Miscellaneous' in Appendix 3L Millwork and Modular Casework Matrix.
- 6. Wherever PACS Wallmounted Workstations are required in Appendix 3L Millwork and Modular Casework Matrix, Project Co will provide all monitor and equipment mounting brackets and supports.
- 7. Example 1: Category 1 Low (1% 4%)
 - A REFER TO THE APPENDIX 3I MILLWORK AND MODULAR CASEWORK MATRIX FOR MINIMUM LENGTHS WHICH WILL BE INCREASED AS REQUIRED BASED ON THE % RANGE WITHIN THE SPECIFIED CATEGORY

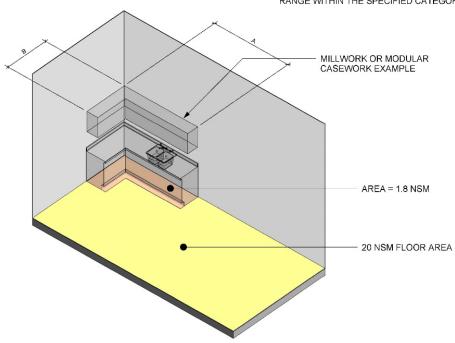

APPENDIX 3L - ATTACHMENT 1

MILLWORK AND MODULAR CASEWORK METHODOLOGY DIAGRAM

8. Example 2: Category 2 - Med (5% - 9%)

A & B - REFER TO THE APPENDIX 3I MILLWORK AND MODULAR CASEWORK MATRIX FOR MINIMUM LENGTHS WHICH WILL BE INCREASED AS REQUIRED BASED ON THE % RANGE WITHIN THE SPECIFIED CATEGORY

9. Example 3: Category 3 - High (10% or Greater)

A & B - REFER TO THE APPENDIX 3I MILLWORK AND MODULAR CASEWORK MATRIX FOR MINIMUM LENGTHS WHICH WILL BE INCREASED AS REQUIRED BASED ON THE % RANGE WITHIN THE SPECIFIED CATEGORY
